

“In our first principals’ meeting of the school year, I circulate a form to administrators showing their FASA membership designation from the previous year. They initial if they want to keep their membership. Administrative Interns also attend that principals’ meeting and I present FASA membership to them as one option they have. After I speak to the administrators, our Superintendent, Richard Shirley, encourages them to join, telling them that FASA is the only group that looks out for administrators. I believe that the high recruitment rate is due to Mr. Shirley’s support. Benefits that we emphasize and appreciate include the Legal Defense Assistance, the FASA Summer Conference and Legislative Representation and Updates.”
