

Publications

The Advisor Handbook

The information that was included in the Advisor's Handbook is now on the FASC Website.

The Florida Sun

The FASC Vice-president school is responsible for publishing The Florida Sun, the FASC newsletter. The first edition is distributed to all Florida middle and high schools. The remainder of the issues (at least three) are distributed electronically to all member schools. It is important that member schools make sure that the FASC Executive Director has an accurate E-mail address and that, as The Florida Sun and other information will be sent in "E-mail blasts", the address is not spam blocked.

The newsletter is filled with news of state and district events and activities, articles on specific problems and information of interest from students in member schools. All members are invited to submit articles regarding their school or student government projects to the Vice-president school for publication in The Florida Sun.

Special Editions

Periodically you will receive (electronically) copies of a series of publications entitled:

- Miracle (For middle level advisors)
- Magic (For middle level student leaders)
- Focus (For high school advisors)
- Challenge (For high school student leaders)

These are older publications but much of the information is still useful.

Alliance Publications

The Florida Association of Student Councils is affiliated with the Alliance for Student Activities. As a result, all FASC member schools will receive, electronically, general publications entitled News of Note, The Advocate and In Brief. Membership in the Alliance is open to all advisors of student activities (SGA, Club, Class, etc.) and cost \$35 per person rather than \$45 as a result of our affiliation.
