

"FASA membership is important to me because there is strength in numbers! I have been affiliated with FASA for over 10 years and I thank Patrick Galatowitsch for getting me active and involved. I recruit in many ways as I mentor new Assistant Principals and potential leaders, work at NOVA University with upcoming administrators, member of other associations and remind them about FASA, through job shadows at my school, beginning clubs affiliated with FASA at various Universities, principal meetings, and just through my day to day conversation with colleagues. I sometimes forget to have them put my name on the form out of excitement that they are joining."
